Environmental Policy

Securecorp conducts its Security, Cleaning, Electronics, Training, and Integrated Services to the highest possible standards which includes our commitment to achieve a high standard of corporate citizenship by recognising our responsibility to protect and enhance the environment.

Our commitment is to provide information and resources to all our employees and the contractors we use to ensure that they:

- Understand the environmental risks of our activities.

- Understand our responsibilities and accountabilities.

- Are trained and informed to have the knowledge and skill to perform their tasks with respect to the environment.

- Have the knowledge and skills to report and respond to environmental emergencies.

- Have the training, documentation, and other resources to conduct their tasks in accordance with this Policy, the Environmental Management System (EMS) and associated procedures.

Establish and implement effective communications regarding the environment with all our employees, our contractors, regulatory authorities, stakeholders, and the community in general. Identify and analyse environmental risks and introduce control measures accordingly.

Establish, maintain, and continually improve an Environmental Management System that is compliant with the requirements of ISO 14001.

Implement environmental goals and targets and related Environmental Management Plans that will drive continual improvement in our environmental performance.

Manage our operations and activities in compliance with our environmental legal obligations and regulatory and statutory requirements.
